

**Specialist Ground Engineering Ltd T/A SGE Ltd
Environmental Policy Statement
ISO14001:2015
Management System Standard**

Scope and context of the organisation

SGE is a specialist in the planning and delivery of earthworks and soil stabilisation projects at complex sites that require a higher level of technical expertise. Our services include a range of bulk earthworks and soil stabilisation within civil engineering and building industries, predominantly on highways, airports and commercial building projects throughout the UK. We offer pre-construction support providing our customers with advice on utilising site won soils to minimise off-site disposal and consciously consider associated environmental aspects.

We are committed to providing products and services in accordance with the principles of ISO 14001:2015 Environmental Management System standard. We aim to continually improve the effectiveness of our environmental management system.

Scope: Specialists in earthworks and soil stabilisation

Policy Statement

- This policy provides a framework for setting environmental objectives and applies to all business products, services and activities with the potential to adversely affect the environment on a local or global scale
- We maintain a commitment to continually improve and enhance our environmental performance through our management system. This will be achieved through our objectives and targets created to ensure intended outcomes are met.
- We are committed to the protection of the environment, including prevention of pollution and fulfilment of company's compliance obligations and other specific commitments relevant to the context of our organisation.
- We are committed to complying with our legal duties and other requirements to which we subscribe and exceed these obligations where reasonably practicable
- We maximise opportunities where possible whilst identifying risk of internal and external factors and aspects resulting from our activities.
- We maximise the efficient use of products and resources and recycle where possible.
- We maintain awareness of potential environmental change and impact resulting from our activities, products and services.
- The company's activities, products and services are documented within our management system to control risks and mitigate environmental impacts.
- This policy statement is communicated to all personnel within the organisation and is reviewed at regular intervals.

All staff are aware of their responsibilities within our environmental management system standard and are committed to its future success. The company supports the appropriate training to ensure the required skills are to the levels expected.

This policy will be available to our external interested parties where appropriate.
